

## **A Doggy in the Hospital**

I can't, I can't, I can't  
take my dog with me.

Don't you wag your tail,  
it's no use begging me.

You'll make me cry  
if you howl that toon.

Wait, wait, wait,  
I'll come home soon.

No one has a dog along  
under the hospital roof.

Who's that underneath my bed  
and just said "WOOF"?

You won't be scared away,  
they won't start scolding.  
Surely it's allowed for me  
to *imagine* my doggy!
